

Introduction to partial differential equations for science students

Longmans - Solve a Partial Differential Equation—Wolfram Language Documentation

Description: -

-
Differential equations, Partial.introduction to partial differential equations for science students
-introduction to partial differential equations for science students
Notes: Bibliography: p. 137.
This edition was published in 1968

Filesize: 55.11 MB

Tags: #Mathematics

Ordinary and Partial Differential Equations and Applications

Required of all departmental majors. Mathematical Logic I 4 Propositional calculus and first-order logic. Please consult the Department of Mathematics to determine the actual course offerings each year.

Solve a Partial Differential Equation—Wolfram Language Documentation

Linear and polynomial functions, zeroes, inverse functions, exponential and logarithmic, trigonometric functions and their inverses. May be taken for credit two times with different topics. Introduction to Mathematical Biology I 4 Part one of a two-course introduction to the use of mathematical theory and techniques in analyzing biological problems.

Mathematics

Prerequisites: MATH 245B or consent of instructor.

Ordinary and Partial Differential Equations and Applications

Instructor may choose to include some commutative algebra or some computational examples.

Solve a Partial Differential Equation—Wolfram Language Documentation

Seminar in Differential Geometry 1 Various topics in differential geometry. Reading and Research 1 to 12 Independent study and research for the doctoral dissertation. Nongraduate students may enroll with consent of instructor.
