While the implementation of enhanced port security measures in Saudi Arabia, UAE, and Iraq may have improved some aspects of maritime security, significant vulnerabilities remain. These texts all engage with the verse-novel form in different ways and draw attention to its problematic and marginal nature. Streszczenie: Roman epic authors extended, reinvented and created new wild animal representations that stood apart from traditional Greek epic renderings.

Insofar as the narrative of Ezra-Nehemiah may reflect the views of one or more historical individuals, it is questionable whether it reflects a pro-Persian attitude. Consequently, this research examines spontaneous data looking at the sociolinguistic distributions and the pragmatic functions of pronominal address forms in contemporary Persian language and politeness synchronically.
