## Kashmir: The world's most dangerous conflict

The width of these canals was 150 to 250 feet only fifteen to twenty years ago and the water of these canals was clear and transparent but today the width of these canals has shrunk to only 15 to 20 or 25 feet.

## BJP, its B

Today, India and Pakistan have an estimated 140 and 150 nuclear warheads respectively. The statement also mentions that India believes that new military alternative technologies that can perform the defensive role of anti-personnel landmines will enable it to stop using landmines altogether. Hundreds of Feet wide River Now only a Few Feet left Srinagar 15 Feb CNI : The Dozens of rivers in south Kashmir are in danger as these canals are occupied by selfish elements.

## A Dangerous Experiment Is in the Works in Kashmir

The Third International on the Scene.

## Danger in Kashmir on JSTOR

A series battles between security and militants followed in various areas of the state. Seen in this context, the frequent comments by , an old BJP hand—including the one which seems to do not appear to be all that off the cuff.

## Danger in Kashmir on JSTOR

Gradually, some of them may be persuaded or tempted whatever is applicable to contest the assembly elections. Gopalan, welcomed the Nehru-Abdullah agreement. It is a shadow cast from beyond the towering Himalayas and the Pamirs, from Sinkiang and Tibet and the Soviet Union.

## NY Daily News

However, many Kashmiris consider the policy to be part of a systematic campaign of minority oppression by India's Hindu nationalist government.

The Hindu-majority independent nation of India followed the next day. He has let the American and British representatives pursue the thankless efforts of mediation, obviously in the expectation that they would fail.
