Central Park (New York City)

South of Harlem Meer and the Pool is Central Park's largest lake, the , known as the Central Park Reservoir before 1994.

Central Park (New York City)

The , the outline for Manhattan's modern street grid, included several smaller open spaces but not Central Park.

Central Park Tower

New York City Department of Parks and Recreation. The landscaped was the only part of the park that the commissioners were not responsible for constructing; instead, the Reservoir would be built by the Croton Aqueduct board.

10 Facts about Central Park

Other problems in the 1970s and 1980s included a drug epidemic, a large homeless presence, vandalism, and neglect. By mid April the Central Park landscape is awash in cherry blossoms and magnolia flowers that signal the completed transformation from dreary winter to spring celebration. The 12th floor is clad with brick and contains a decorative balcony in the central bay.
