JANE TODD CRAWFORD It was these circumstances, more than anything else, that made it possible for McDowell to aspire to the honor of being the first ovariectomist.

SPENCER

When you return will expect you to take Rockbridge in your road to Kentucky. Therefore, he adds, â I I had two spring handles, each furnished with a series of hooks, adjusted outside the canula sic , by which the emptying cyst could be immediately fastened to the cannula see also No. McDowell 221 Fragments of First Tombstone 221 The Knapp Portrait of Dr.

The colleagues with whom McDowell was more imme- diately associated while in practice will be referred to further on.

Part II. Reviews and bibliographical notices

If the pedicle bleeds within the peritoneal cavity — a very rare thing if the ligature is applied — the incision must be re-opened, the vessel tied, all the blood removed from the cavity, and the wound re-closed. From this card, which now seems to be lost, but which did not escape the indefatigable efforts of Gross, when some years ago he interested himself in the subject, important sidelights adding considerably to the simple statement made in his report of the operation are ob- tained, namely: My nephew, Dr.
