European industrial strategy

Ensuring proximity between where significant investment decisions are taken and the political centre can be an important factor in choosing where to locate corporate headquarter.

European industrial strategy

Articles 179 to 190 of the TFEU. London: Longmans, Green, and Co. Malheureusement, le lendemain, l'Organisation mondiale de la santé a annoncé la COVID-19 comme une pandémie.

The European Commission in EU Defense Industrial Policy

Governing the Market: Economic Theory and the Role of Government in East Asian Industrialization.

European champion

Nonetheless, industrial policy should take into account the specific needs and characteristics of individual sectors. Aligning action in all areas Fighting climate change and achieving the transition to a climate-neutral society will require significant investments, research and innovation, new ways of producing and consuming, and changes in the way we work, use transport and live together.

The European Industrial Strategy

The importance of improved cooperation in the areas of good quality public administration, trade, research and raw materials is also mentioned. These documents are not replacing the 2020 Industrial Strategy but updating it. Examples of initiatives with a budget envelope include in order of importance : cohesion policy, Horizon 2020, the Connecting Europe Facility and the EU programme for the Competitiveness of Enterprises and Small and Medium-sized Enterprises COSME , whose collective budget stands at slightly less than EUR 200 billion.

General principles of EU industrial policy

The European Commission had worked to gain more authority over defense industrial policy for decades, with limited success. It often involves government working collaboratively with industry to respond to challenges and opportunities.

The European Industrial Strategy

. Industrial Policy and Development: The Political Economy of Capabilities Accumulation.
