318 Building Code Portal

A Concrete Transportation Construction Inspector-in-Training is a person who has demonstrated knowledge in concrete inspection methods for transportation projects, but does not have the experience required to qualify as an ACI Concrete Transportation Construction Inspector. ACI standards are written in mandatory language.

Keeping the construction industry informed for over 74 years! The guide is available in both printed and digital formats. Construction Links Network Established in 2003, Construction Links Network is a peer-to-peer content sharing platform for the construction, building and design community. Areas that need repair—a balcony or multistory-building column or group of columns in the center of a floor plate—may be isolated, raising unique structural considerations.
