### Creationism vs Evolution

Evolutionary ideas were already circulating that tried to challenge such creationist accounts. A mutation in a gene led to a defect in DNA repair. But despite its acceptance in every major textbook, there is no documented instance of it.

### The Origin of Ideology

Without it the theory of evolution would never have happened. They imagined different ways that could have happened.

### Evolution and Ideology

For example, partisans who are more religiously observant, measured by frequency of attending worship services, hold distinct views about evolution, as compared with fellow partisans who are less observant. Still other evolutionists, ourselves included, question even this most fundamental belief, that there is a single true tree.

### Science, evolution, and ideology

That alone is fatal to the theory of evolution. His analysis starts at 57:06 of the video Dr. But, in all due respect, professor Krauss is a poor spokesperson for this cause.

### Evolution and Ideology

Even when we extrapolate to a population size of one billion we still have a waiting time of 40 million years. When a creature produces light with chemicals it is called bioluminescence.
