## GEOGRAPHY AND PHYSICAL FEATURES OF NEPAL

They have great influence on the way of life of people and the culture. North of this range and south of the Himalaya lies the extensively cultivated broad hill complex of the Pahad or Hill region which covers about 64 percent of the total land area, the major area of Nepalese settlement. First, the region is seismically active.

### 10 Cultural Universals: How Does Geography Impact Culture?

GIS can also refer to techniques used to represent, analyze, and predict spatial relationships between different phenomena. Hinduism is a polytheistic religion with a wide variety of individual beliefs and practices. Project Work Select forest as a natural resource.

## Nepal

The first 30 are the most relevant in the keyword search. In many areas of urban centers, traffic may be stopped to await the movement of a sacred cow or a donkey or bullock cart loaded with merchandise.

## Chapter 9: South Asia

The study of physical geography is emerging as a discipline of evaluating and managing natural resources. Neighboring Bangladesh offers little in support of economic growth, and Myanmar, another neighbor to the east, has its own set of problems and lacks support for East India.

## Nepal: History, People, Geography, and Economy

In beyond the high mountains, annual precipitation drops as low as 160 mm 6 in. With an estimated population of about 158 million in 2011 and a land area of only 55,556 square miles, it is one of the most densely populated countries on the planet.

### 10 Cultural Universals: How Does Geography Impact Culture?

In southern India, however, most groups speak a language in the Dravidian family, comprised of the indigenous languages of South Asia that were

present before the arrival of the Aryans. The downside is that tourism demands an investment in infrastructure and services. An 80 percent majority follow Hindu beliefs.

### **Geography of Nepal**

The royal family in charge of the kingdom was replaced in 1951, and further democratic reforms were made in 1990. Kathmandu is the largest and populous metropolitan city and the center of history, culture and economy of Nepal. Because marriages forge important social bonds between families, when a child reaches marriageable age, the family elders are responsible for finding a suitable mate of the appropriate caste, education level, and social stratum.

### **South Asia**

Much of the high country above 5,000 meters is under snow and ice, although the permanent snow-line varies according to aspect and gradient. Likewise, the hilly region does have diversional landscapes, insurmountable hills, fertile valleys, hilarious flora and fauna, tranquil lakes and so on. The Meghna is a collection of tributaries within the boundaries of Bangladesh that flows out of the eastern part of the country.
