### Educational Benefits of a Computer

Furthermore universal adoption of common standards will support future technological innovations that aid teachers. Ordinarily, teachers do not have time to attend to slow learners and tend to move with the pace of the fast learners thereby leaving slow learners behind.

### Benefits of computer assisted learning to students in Kenya

We hope to provide a well-rounded, multi-faceted look at the past, present, the future of EdTech in the US and internationally. The teacher needs a good content-communicating skill too in virtual teaching. However, in a bid to develop socio-emotional propinquity, teachers may use some tips such as sharing personal learning-experiences with learners, providing quick learning feedback, and creating a comfort communication aura and boosting learners to share their learning experiences, etc.

### NASSP

However, juggling between work, family and learning can be quite challenging. The most effective instruction for students with borderline intelligence is direct instruction of every specific needed skill, with extensive guided practice on how, when, and where to use each skill.

### Brain Training for Slow Learners

Simple tools such as a dictionary and a thesaurus help writers expand their vocabulary, while spelling- and grammar-checkers are helpful to find and correct errors.

### Edutopia

We shared it with our year 6 students and taught it through a mixture of reading the book aloud to children, guided reading sessions focusing on key scenes, drama activities and related language studies on the author's style and use of language. David gives an example of two attorneys preparing for court. Amidst the current cataclysm, teachers may take the following response measures to improvise the teaching in the digital classrooms- Having an easygoing shifting from offline to online classes Online classes have been on the rise amidst this home-based learning atmosphere.

## **Benefits of Using the Framework for Teaching**

Technology has failed to transform our schools because the education governance system insulates them from the disruptions that technology creates in other organizations. These variations in speed can affect slow learners' motivation if the teacher does not take a leading role to help the student.

## **Slow Learner Child: Characteristics, Challenges & Tips to Handle**

Communication platforms like Twitter, Facebook, or Tumblr enable dynamic communication with students.

## **Five Ways Teachers Can Use Technology to Help Students**

Assisting those who are unresponsive and slow learners in e-classes It is inevitable for a teacher to ensure learning equally happens to all.
