## Curriculum: Decision

Allow children to make safe and choices and explore physical science concepts with teacher support.

## DEF

For example: Cooper, a toddler, noticed a gopher hole in a garden patch. Our aim is for everyone to learn how to make good decisions and we appreciate your feedback and testimonials.

## DEF

They noticed that the books helped her focus less on a need for physical contact and more on new interests, resulting in less emotional worry. Because his interest was channeled creatively, he was able to express his interest, experiment, and as a result, the challenging behavior was resolved: he no longer pushed his friends down or pushed materials off shelves.

## Informed Decision Making Curriculum

What does such an emergent curriculum look like in infant and toddler classrooms? Since Marrieah is so interested in water, you might try planning experiences where it is okay to get objects wet.

## Informed Decision Making Curriculum

After two days of continued interest, his interests changed.

## ERIC

For example, create a situation in which the child could cause objects to fall again and again in a less disruptive way. Allow the study of snails, bugs, and other small creatures to take on a life of its own. Cooper solved the problem on his own by experimenting with a long spoon.

**Curriculum: Decision**

Acting on this information, Gomez adapted an outside play area so that Jerome could participate in an activity he enjoyed without being disruptive or hurtful. It is designed for low cost, ease of adoption, and universal availability. Second, Chris was exploring her fine-motor skills.
