This new edition includes new narrative texts that are even easier than the pre-primer passages previously included.

## VideoWorkshop for Reading Methods: Instructor Teaching Guide with CD

Students receive the Student Learning Guide, and both guides come with textbook-specific Correlation Grids. Informed by the latest research on topics ranging from phonemic awareness and phonics to teaching comprehension strategies, motivation, and assessment, this text provides the knowledge base, skills, and research-based strategies that all teachers need to guide K-8 students successfully toward literacy for the 21st century—using reading and writing for thinking, problem solving, and communicating. This impressive text is mostly geared toward teachers of children with learning disabilities, but there are quite a few useful teaching and learning strategies that will apply to post-secondary students as well.

### **Annotated Bibliography**

This book focuses on the issues facing practising clinicians wishing to engage in research. A philosophical axiom underlying this book is that introductory teaching should prepare students to potentially enter more advanced quantitative methods training and ultimately to become accomplished researchers.
