### Research and reports

This shows an increase in the number of internally and externally displaced persons from 2 million to 4 million Mercy Corps 2018. In Sudan, heterosexual transmission accounted for 97% of HIV positive cases. Also, the country has embarked on developing detailed roadmap for providing universal health coverage to its population.

### Research and reports

South Sudan: A political economy analysis.

### South Sudan Overview

Around 2005, the economy began a transition from this rural dominance, and urban areas within South Sudan have seen extensive development. The data used in this paper was obtained through rigorous thematic analysis of existing literature on the South Sudan conflict. Factors that threaten the new agreement are the creation of positions for four vice-presidents, and efforts to extend the presidential term again by three years — given that elections were supposed to be conducted in 2015 but were not.

### South Sudan conflict from 2013 to 2018

The authorities have accelerated dialogue on key reforms intended to cushion the economy amidst a double health and economic crisis.

### Sudan Overview

The recent peace accord between the warring parties brokered by Sudan and Ethiopia appears to be holding, but the war damaged oil infrastructure, further eroding revenue availability to Sudan. Uncertainty around the estimates should be considered when using them for decision making and further work should quantify this uncertainty to facilitate utilisation of the results. In order to understand the South Sudan civil war, however, we need to look at more than just these three narratives.

### South Sudan

Unmet demand for contraception is particularly large among cohorts of women older than 30 years of age. The meeting was concluded with the signing of a new peace agreement that called for a countrywide cease-fire as well as the sharing of government positions. In the following weeks, pockets of fighting across the country were witnessed, and the UN Human Rights Commission published a report on 11 March 2016 asserting incidences of war crime that include sexual violence.

### **South Sudan conflict from 2013 to 2018**

In April 2014, , then the , stated that more than 9,000 had been fighting in South Sudan's. Understandably so because the region became independent after three decades of fierce fighting with the North.

### **South Sudan Population 2021 (Demographics, Maps, Graphs)**

This is an 800,000 increase in absolute numbers from the 7.
