Minnesota State Census Records — Help/About

Please note: Most of the 1890 Census was destroyed in a Department of Commerce fire in 1921, though partial records are available for some states. These strengths are complete geographic coverage, large scale, and broad chronological scope. The high costs of tabulation before the introduction of modern data processing equipment meant that few cross-classifications of census data were feasible, and the census office had to make difficult choices about what to measure.

Minnesota State Census Records — Help/About

Generally it will tell you the person's name, age, gender, ethnicity, and birthplace; the census location; and their parents' birthplace s. The 1930 census manuscripts will not be released until 2002, so that sample will be delayed.
