The Multiculturalist Problematic in the Age of Globalized Capitalism

As just said, over the last few decades, moral philosophy and political theory have proposed different approaches to these issues, depending on the emphasis on individualization or collective identification processes of identity construction. For Heller, the rule of multiculturalism can become an instrument of abuse and imposition when the decisions of individuals are prejudiced or subject to generalized preferences.

Many nation-states in Africa, Asia, and the Americas are culturally diverse and are 'multicultural' in a sense. The Chinese Indonesians were treated as the scapegoat of, a result of ongoing discrimination and segregation policies enforced during Suharto's New Order regime.

Cultural Differentiation and Social Integration in Complex Modern Societies Reflections on Cultural Diversity Management Strategies from a Sociological Point of View

Thereby the process of integration has to start from the beginning for each generation. In fact, the crucial question seems to be focused on the need for public recognition of differences by the host society through special rights, and particular institutions, self-governed by individual specific groups.

Federalism and National Diversity in the 21st Century

It is argued that , who would previously have been synonymous with a distinctive cultural identity of their own, lose out to enforced multiculturalism and that this ultimately erodes the host nations' distinct culture.

Federalism and National Diversity in the 21st Century

Karpowitz, Margaret Levi, Meira Levinson, Keena Lipsitz, Richard G. All over Europe, more traditionalist Islamic communities, with their apology of unanimism, their holistic individualism, and certain cultural profiles far from being liberal principles rejection of secularism, popular sovereignty,

human rights as an individually recognized asset , seem to have posed the most serious problems to integration and social cohesion. On the other hand, the intercultural solution responds to principles of social fairness, avoiding confusion between cultural freedom, fundamental for human dignity, and the defense of any form of cultural legacy that does not take into account the choices people would make if they had the opportunity of seeing things in a critical manner.

Therefore, the Complexity language can justify the caution with which the normative multiculturalism—which implies it—is believed that should be considered, by anchoring it to the vision of a society conceived so as to dangerously visit that range of maximum differentiation which should be avoided, being identified as the range of ungovernability. However, the same poll in 2015 showed that support of a multicultural society had dropped to 49. In this idealistic meaning, the concept is used as yardstick of modernity, of the progressive weakening of social tie networks and fragmentary process of identity construction generated by the disappearance of a collective telos, an ideal of good, produced, shared and enjoyed together, by the needs of the Enlightened project to found an autonomous, rational and secular morals, capable of tracing, outside any teleological and theological perspective, the founding criteria of the rules of conduct in nothing other than in the individual, in his free choice, and in his own ideal of good.

Multiculturalism Incorporated: Student Perceptions, Innovative Higher Education

The Economist argued that Canada's multiculturalism was a source of strength that united the diverse population and by attracting immigrants from around the world was also an engine of economic growth as well.
