## WTO

Most of those countries did so, but not New Zealand. . In fact, of six diagnostic conditions with high Māori mortality, in only two did Māori GP utilisation rates exceed those of non-Māori.

## WTO

Al-Tuhfat al-lafifa fi tārīkh al-Madīna al-sharīfa. A lower growth in currency in circulation in these years indicates, in general, a lower GDP growth and lower inflation.

**No, Australia has not peaked. Our best generation is here now**

Substantial tariff reductions have been implemented over the past decade, including that in July 1996, which resulted in a 1 percentage point drop in the average rate.

## New Zealand economic performance

The two reports, together with a report of the TPRB's discussion and of the Chairman's summing up, will be published in due course as the complete Trade Policy Review of New Zealand and will be available from the WTO Secretariat, Centre William Rappard, 154 rue de Lausanne, 1211 Geneva 21.

## WTO

Whichever one one uses — but especially the expenditure measure — suggests a reasonable lift in average labour productivity this year on one

combination as much as 5 per cent. The study found that demand for money by households was significant with respect to elasticity of consumption and interest rate. Through this programme and through further work in bilateral and regional fora and multilaterally in the WTO, New Zealand expects that by the time of its next scheduled review in the year 2002 the goal of free and open trade and investment at the multilateral level will be considerably closer to being achieved.

### **New Zealand economic performance**

A crude method of estimating the change in the size of the informal economy over time is to study the change in cash to deposit ratio using monetary approach trend of the cash ratio Gutman 1977, Feige 1979, Tanzi 1983. There was never much sign of that in the aggregate. Despite the emergence of various alternatives to cash-based transactions, currency retains its pre-dominance.
