

Water-related utilities for small communities in rural Alaska

U.S. Environmental Protection Agency, Office of Research and Development, Corvallis Environmental Research Laboratory, Arctic Environmental Research Station - Drinking Water Grants

Description: -

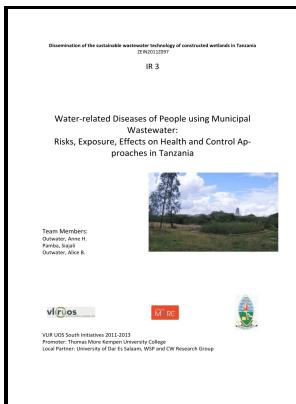

-
Coho salmon
Fish populations -- Washington (State)
Eye-sockets -- Anatomy.
Eye -- Anatomy.
Guaranteed annual income
Income
Ehime-ken (Japan) -- History.
Man'yōshū.
Music -- Discography
Sound recordings -- Reviews
Water quality management -- Alaska.
Sewage disposal -- Alaska.
Sewage disposal -- Developing countries. Water-related utilities for small communities in rural Alaska

-
Eighteenth century -- reel 6687, no. 07.

Successful completion includes a minimum of 90% attendance, participation in polls, and answering 3 out of 4 quiz questions correctly.

Sustainable Utilities in Rural Alaska Effective Management, Maintenance, and Operation of Electric, Water, Sewer, Bulk Fuel, Solid Waste Final Report Part A: Overview

Emphasis was placed on media and membrane filtration technologies capable of meeting the requirements of the Long-Term 2 Enhanced Surface Water Treatment Rule LT2ESWTR and the Groundwater Rule. The following studies will help improve our understanding of the spread of contaminants through drinking water treatment, and identify best approaches for removal. Successful completion includes a minimum of 90% attendance, participation in polls, and answering 3 out of 4 quiz questions correctly.

A new series of cost models have been designed for the purpose of estimating the national costs of drinking water regulations, although they can also be used at the individual site scale. This report provides a foundation of facts and ideas that can be used to move toward sustainable utilities in these places.

USDA Announces Southeast Alaska Sustainability Strategy, Initiates Action to Work with Tribes, Partners and Communities

This is likely to disproportionately affect small drinking water systems due to limited resources and treatment options, among other factors.
