This, they charge, is simply not possible.

### Philosophy of Social Sciences

Social institutions — a marketplace, a church, a business firm, a sports game, marriage, and so forth — are created and governed in part by the beliefs that people hold about them. I may have hosed it down. Thus the poor are poor owing to their own choices and effort, and not because the capitalist system presents obstacles to exiting their situation.

### Philosophy of Social Sciences

The act of voting entails more than a particular physical movement, however. I want my students to form assertions about the world and feel comfortable to share them in class.

### Philosophy of Social Science

The account of soldiers would have to be limited solely to narrow descriptions of their psychological dispositions. At least in the long run, natural science tends to produce consent regarding which theories are valid.

### Philosophy of Social Studies Teaching and Learning

As such it is also rarely discussed in more detail how social phenomena relate to individuals and in what sense, if any, they may be reduced to individual beliefs and actions.

A fruitful research framework in the social sciences is the idea that men and women are rational , so it is possible to explain their behavior as the outcome of a deliberation about means of achieving their individual ends see RATIONAL CHOICE THEORY. We usually take both of these, at

some level, to simply be self-evident.

### **Philosophy of Social Science**

Second, the uninterpreted character of observation.
