Purists argue that for the programs to be effective, they should be able to recognise any semantically and syntactically correct word that could be fit into the gap.

## Teachnology: What Is Computer Assisted Language Learning?

Self access language learning centers or independent learning centres have emerged partially independently, and partially in response to these issues. Review of Educational Research 52 421 - 445.

However, they need to be able to see how the keywords relate to one another to be able to use the tree branch hierarchy which is the subset and which is the main idea. ConclusionPerhaps the success of any website has to do more with the scope and goals of the project than the technology and financial resources invested in it.

## Computer Assisted Language Learning

The online school is, therefore, the perfect alternative for them. The original source file was recorded in stereo at a sampling rate of 44,100 kHz, 16 bit near CD quality , and it was then encoded using three different codecs in RealMedia format. According to Moore, higher education is entering its third generation.
