Growth performance of planted population of *Pinus roxburghii* in central Nepal

Previous studies of forest carbon stocks in the government-managed P.

Association mapping for resin yield in *Pinus roxburghii* Sarg. using microsatellite markers in: Silvae Genetica Volume 63 Issue 1

Used for construction, shingles, boxes etc.

Flora of Zimbabwe: Species information: *Pinus roxburghii*

Kits for evaluating the lipid peroxidation marker, malondialdehyde MDA , as well as those for antioxidant parameters represented by superoxide dismutase SOD and catalase CAT were bought from Biodiagnostic Co. Myeloperoxidase MPO ELISA kits was brought from Hycult Biotechnology, Plymouth Meeting, PA, USA.

Pinus roxburghii (■■■) description

MS, RI 61 Myristic acid 1774 1774 1. Based on the phenotypic data and stable resin production in consecutive years, 53 genotypes were selected after excluding the individuals with similar resin production.

Studies on somatic embryogenesis from immature zygotic embryos of chir pine (*Pinus roxburghii* Sarg.) on JSTOR

MS, RI 50 Dodecanoic acid 1576 1578 2. It is a relatively non-variable species, with constant morphology over the entire range. Larger trees will check badly and hardly put on any growth for several years.

Pinus roxburghii

In Nepal, community-managed reforestation with *Pinus roxburghii* for soil conservation in the mid-hills region now accounts for almost nine percent

of the total forest area, making P. Oldest Dendrochronology Exploratory work by Bhattacharyya et al. For other species, saplings and understory vegetation, a default carbon fraction of 0.

Ethnobotany and phytopharmacology of *Pinus roxburghii* Sargent: a plant review

Mass spectra were recorded applying the following condition: equipment current filament emission current, 60 mA; ionization voltage, 70 eV; ion source, 200 °C.

Chemical Composition of *Pinus roxburghii* Bark Volatile Oil and Validation of Its Anti

MS, RI 58 α-Santalol 1689 1683 0.
