### Central and eastern Europe

While this necessitates investment in academic institutions to encourage critical thinking, other factors, such as the political environment, culture and taboo, the strength of public networks, social cohesion or solidarity, access to information and communication, also directly impact the economic value of social capital.

### Globalization and Transformation in Central European Countries: The Case of Poland

Should government policies foster the incentives to invest in education by providing a specific tax structure? A possibly relevant indication of the success of these reforms is that the country has recently implemented a phased process to raise the retirement age for men from 65 to 67 by 2020 and women from 60 to 67 by 2040. What broad lessons were learned from the experience of the past 10 years? An open economic and social crisis broke out in Poland, which led to a military takeover in 1981 and later resulted in international insolvency.

### An Economist's Reflections on Individuality, Human & Social Capital & the Responsibility of Academia: The Case of Poland and Central

The other is that private sector development in Central Europe, partly because of its better property rights environment, is more successful than in the former Soviet Union. Planting the Seeds, Cambridge University Press, Cambridge. Cleaning removes one element of systemic risk, since much

of the debt is of the intra-governmental type resulting from the old pricing system
