Librarians are available Monday-Friday by phone or by email. In the reality of even contemporary conflicts, the expectations of belligerents, and the arguments hypocritical or not invoked by governments, rebels, politicians, diplomats, fighters, and national and international public opinion, are based on standards, not only on when armed violence may or, rather, may not be used, but also on how it may be used.

Bibliography for Research on International Human Rights Law

Today, the growing power of the press and of the mass media generally has greatly increased the importance of public opinion especially in democratic countries. Furthermore, a database on national measures for the implementation of humanitarian law is being set up.
