Ідентифіковано структуру життєвого циклу соціально-економічної системи із визначенням загальних та конкретних складових елементів повторюваних змін за позасистемними та системними показниками.

Choosing a Topic

In short: triangulate, but do not gamble with evidence.

Utility Concerns In Choosing An Assessment Method

I lastly demonstrate that in some ordinary decisions under risk, ECU theory delivers different verdicts from those of standard decision theory.

My Bibliography

In the first part it will discuss relations between expected utility theories, the characteristics of homo oeconomicus and a modern understanding of altruism. I start with Bayesian approaches to expert testimony and the problem of expert disagreement, arguing that two popular approaches—

supra-Bayesianism and the standard model of
