## Factfinder for the Nation: History and Organization

This prevented the bloody blanket from ripping or slipping off the hooks and crashing to the ship's deck. The diagrams in this illustration display only a few of the tools used to butcher whales. The Detailed Tables do not include percentages for most data items.

## Factfinder for the Nation: Transportation & Warehousing, and Utilities

Developing and applying a user-centered model for the design and implementation of information visualization tools. In this article, we describe a collaborative effort to create an online geographic data visualization tool using open software to explore preterm birth in Fresno County, where rates are the highest in California.

## National Geographic

Office of Educational Research and Improvement. The team is also creating a set of how-to videos with examples and trainings to explain how to use tool components and featuring specific use cases such as generating visuals for a grant application or for presentation to a community group, drawing on feedback and previous research showing the need for training across health and geospatial visualization tools 24. History and Government The United States is a representative democracy and its people play an important role in the governing process.

## Demographic

The Rights Holder for media is the person or group credited.

## New American FactFinder

Children will love to identify the fossilized teeth of Sand Tiger, Otodus, and Crow sharks. PEER REVIEWED What is already known about this topic? Feedback is considered and incorporated into the tool design.

## **Geographic Learning**

You can request data for multiple surveys through USDA's Geospatial Data Gateway. All content is original, and no copyrighted materials were used. Challenges, Next Steps, and Final Thoughts The project faced numerous challenges.

### **Factfinder for the Nation**

The next step in the process will be further dissemination of the tool, because use of the tool by stakeholders thus far has been limited. You can view the original document, read a transcript, and learn about the history of each. A database of lessons submitted by ESRI education teams U.

### **National Geographic**

As new and updated data are pulled into the tool, the team will also have to face the challenge of demonstrating change from time-based data. Stakeholder Involvement The design team followed a user-centered design model for facilitating stakeholder involvement and designing the tool for optimal interface success, which proved successful for designing web-mapping, visualization, and data exploration projects 20—22. We encourage users to use these codes for their own health data visualization projects and to contribute new visualization features back to the repository as they are developed.
