If you stand still, the camel spider will, too. There must have been hundreds up there, especially around the streetlights and in front of the homes with lots of untrimmed palm trees.

## Valeria Nicolosi

The rapid decline of tigers in India, along with the persistent poaching of tigers and their prey in the RFE, underscores the fact that only high-level

political will on the part of tiger-range countries and countries that permit traffic in tiger parts will stop the continued downward spiral of wild tiger populations in many areas.

### **Fate of Wild Tigers**

Yet despite these allocations and additional support from NGOs based in India, tiger populations have seen drastic declines, primarily because of mismanagement of available funds and, consequently, inadequate protection,. Working hard no longer guarantees financial stability and the opportunity to enjoy your retirement years.

### **Our Precarious Habitat**

If you run, your shadow runs with you and the camel spider will chase your shadow to stay in the shade.
