Possible ex library copy, will have the markings and stickers associated from the library. This experience was also used in several of his other books and is included in his posthumously published stories:. Until 1944, the effect on German production was remarkably small and raised doubts whether it was wise to divert so much effort—the response being there was nowhere else the effort could have been applied, as readily, to greater effect.

Bombing of Dresden in World War II

These balloons, the largest of which were some 60 feet 18 metres long, were essentially an airspace denial tool. The term came to specifically reference America and its industrial machine as the primary military supplier for the allied war effort.

Bomber Offensive the Devestation of Europe Ballantine's Illustrated History...

A Dresden police report written shortly after the attacks reported that the old town and the inner eastern suburbs had been engulfed in a single fire that had destroyed almost 12,000 dwellings. In the case of Dresden, as in many other similar attacks, the hour break in between the RAF raids was a deliberate ploy to attack the fire fighters, medical teams, and military units.
