America Needs an Industrial Policy

Cleared employees means all employees of industrial or commercial contractors, licensees, certificate holders, or grantees of an agency, as well as all employees of subcontractors and personal services contractor personnel, and who are granted favorable eligibility determinations for access to classified information by a CSA or are being processed for eligibility determinations for access to classified information by a CSA.

Federal :: National Industrial Security Program Operating Manual (NISPOM)

The ability for the USG to fill crucial mission gaps using contractors would be severely impacted.

America Needs an Industrial Policy

Each cleared entity using the entity-wide ITPSO must separately appoint that person as its ITPSO for that facility. If a CSA determines that certain KMP can be excluded from access to classified information, the contractor will follow the procedures in accordance with § 117.

America Needs an Industrial Policy

It can also raise the sea level, trigger storm surges and change river morphology. Continuous evaluation as defined in SEAD 6 is a personnel security investigative process to review the background of a covered individual who has been determined to be eligible for access to classified information or to hold a sensitive position at any time during the period of eligibility. For this rule, SEAD 3 applies only for those contractor personnel who have been granted eligibility for access to classified information through the NISP.

Federal :: National Industrial Security Program Operating Manual (NISPOM)

The contractor will report any emergency situation that renders their location incapable of safeguarding classified material as soon as possible. Start Printed Page 83324 2 Suspicious contacts.

America Needs an Industrial Policy

In both the article and the report, Rubio put his finger on one of the key areas of American vulnerability in this regard: the high-tech sector. Certification means comprehensive evaluation of an information system component that establishes the extent to which a particular design and implementation meets a set of specified security requirements. Continuous monitoring program means a system that facilitates ongoing awareness of threats, vulnerabilities, and information security to support organizational risk management decisions.

America Needs an Industrial Policy

The contractor will provide a statement indicating: A Whether the new KMP are cleared for access to classified information, and if cleared, to what level they are cleared and when they were cleared, their dates and places of birth, social security numbers, and citizenship. The information may be CUI, if it is not classified.

Occupational Hazards and Climate

The contractor should be aware that the sponsorship request from the GCA to the CSA must also include: i Description of the compelling need for the limited entity eligibility determination that is in accordance with U. DoD is not proposing changes to the DoD collections based on this final rule, nor have any of the other NISP CSAs indicated proposed changes based on this rule.
