The Domestic Politics of Humanitarian Intervention: Public Opinion, Partisanship, and Ideology on JSTOR

In general, there are many controversies surrounding the usefulness of humanitarian intervention and if it accomplishes its objectives like maintenance of peace, prevention of massive violation of human rights among others. Most realists discard ethics in foreign affairs and believe that threats to vital interests are worthy of intervention, and call intervention only for humanitarian reasons a delusion or as bogus.

Humanitarian intervention

At the time of the PACOM team's visit, the US state department sent James Moore, deputy chief of mission at the US embassy in Colombo, to Jaffna peninsula for an independent assessment of the situation there. This further means that groups worth protection may have independent interests which may be conflicting with those of other members. But the evil is, that if they have not sufficient love of liberty to be able to wrest it from merely domestic oppressors, the liberty which is bestowed on them by other hands than their own, will have nothing real, nothing permanent.

International Politics: Humanitarian Intervention

Instead of articulating individual human rights during times of warfare, armed conflict norms mainly aims to prevent the infliction of unnecessary suffering on combatants and the abusing of war prisoners, civilians, and surrendered combatants in international and domestic armed conflicts. One important aspect about the natural law is that one is not restricted to whom they should help therefore aspects like contract, common locale or political ties does not tie one to whom they should help or not because anyone can be helped Nardin 59.
