## Review of The Enigma of the Gift

After I tried to summarize the book, she told me a little story. In The Enigma of the Gift, the distinguished French anthropologist Maurice Godelier reassesses the significance of gifts in social life by focusing on sacred objects, which are never exchanged despite the value they possess. After a fresh analysis of the potlatch and the kula, which lay at the heart of Mauss's theory, he shows that the enigmas which stymied Mauss are resolved once one sees that objects can be at the same time given and kept: what is given is the alienable right of usage, what is kept is the inalienable ownership.
