## Economic history of Pakistan

Ayub Khan celebrated the decade 1958—1968 of development in 1968 under his repressive regime of basic democracy, with its GDP growing at 7.

## 1960

The scope of Soviet research in Brazilian history becomes clearer upon an examination of relevant contributions to edited works and scholarly journals. In 1959 the capital was moved from Karachi to the newly established city of Islamabad.

## Economic history of Pakistan

The latter includes numerous primary source materials and foreign secondary works, as well as Russian-language materials and a selection of writings from Marx, Engels, and Lenin. Koval cites the case of Bahia in the final decades of the eighteenth century, when over a 20-year period production trebled with no corresponding increase in the labor force. The discovery of gold and diamonds early in the eighteenth century was important, Soviet scholars suggest, because it set the stage for the eventual emergence of a national independence movement.

## Pakistan Economy Eras

Nothing could now stem the abolitionist tide.

## Pakistan Paedia

A law was introduced to redistribute the land. The book contains a varied bibliography of primary and secondary sources. Consequently, there was an unprecedented increase in crop production.
