**The Theology of the Early Greek Philosophers by Werner Wilhelm Jaeger**

In , it was translated as essentia or substantia. Being oneself in this sense, however, is quite different from the individuality promoted in the Western world. The Cynics favored instead a life lived according to nature.

Perhaps more basic than number, at least for Philolaus, are the concepts of the limited and unlimited. He regarded the world as the perfect harmony and based his teaching on how to lead a harmonious life. This is the most divine life, since one comes closest to the pure activity of thought 1177b30.
