In addition to the successful exploitation of captured documents and Sgint, the department made good use of photographic reconnaissance in determining in advance of the offensive such things as road capacities, defences, physical obstacles and floodable areas. For starters I provide you with my sincerest thankfulness to my supervisor, Doctor Mike Thomas, who has reinforced me throughout my thesis along with his patience and knowledge even though helping me the room to your workplace with my own personal way. Panelists share their stories about how they developed skills related to scripting languages and computational thinking, identified accessible resources, and created opportunities for learning at their institutions and beyond.
