Concerning Signs and Symptoms

Mild symptoms can usually be managed with over-the-counter options. However, vaginal atrophy is caused by a lack of estrogen while a vaginal yeast infection is caused by a fungal infection.

Disorders of the Vulva: Common Causes of Vulvar Pain, Burning, and Itching

This can be a sign of ovarian cancer. Cancer cells can also stop lymph fluid from draining away. Rising hCG levels and a more sensitive sense of smell can make the problem worse — so now might be a good time to avoid cooking liver and onions.
