With remarkable foresight, these decades also put in place the social network that supported Canadian values at least until the early 21st century, and laid the foundation for the burst of artistic creativity that would follow in the 1960s and 70s. Among them are commentaries on humour and satire, genre including radio drama and the long poem, social history, film, television and popular culture, literary awards, language, critical theory, the oral literatures of the First Nations, petroglyphs, the publishing industry, journalism, gender, race, religion, region, myth, and class. Within Canada, the land itself is recurrently associated with power, whether as property, region, a hostile force, a godly gift, the basis for resource extraction, the site of communication, the contested territory of competing cultural claims, the border or the ecological medium in which human life integrates with all other living beings in Nature.
