All these things are predetermined by a higher power. If atomic energy were to make production easier, the only effect, as things are, would be to make wars worse, since fewer people would be needed for producing necessities. Yet these are strict analogues of the things the Russians have done in Poland.

### The Future Of Mankind

Why do you boast all day long, you who are a disgrace in the eyes of God? In the 19th century, human extinction became a popular topic in science fiction. Well before this time, the level of carbon dioxide in the atmosphere will be too low to support plant life, destroying the foundation of the food chains.

## **Critical Analysis**

According to standard physics, the entire universe over much, much larger timescales will become gradually uninhabitable, resulting eventually in unavoidable human extinction associated with the.
