The has not yet been found and scholars believe Esther is missing because, as a Jew, her marriage to a king may have been looked down upon by the inhabitants of Qumran, or because the book has the festival which is not included in the. For those scrolls written on animal hides, scholars with the Israeli Antiquities Authority, by use of DNA testing for assembly purposes, believe that there may be a hierarchy in the religious importance of the texts based on which type of animal was used to create the hide. In 2013 parts of this collection have been put on display at in Amman, to which they were moved from the.

The Dead Sea Scrolls

The initial publication, assembled by and Józef Milik, was published as Qumran Cave 1 in 1955. Believed by some to be Mark 6:52—53 7Q6—

Using a process known today as broadband fluorescence infrared photography, or NIR photography, Najib and the team at the Museum produced over 1,750 photographic plates of the scrolls and fragments. As of May 2012, five complete scrolls from the have been digitized for the project and are now accessible online: the Great Isaiah Scroll, the Community Rule Scroll, the Commentary on Habakkuk Scroll, the Temple Scroll, and the War Scroll. The deciphering feat was spearheaded by Dr.
