We do not know whether the headdress from Kharlap described above is complete or partial. The plaques and log-shaped beads were edged with pearls and beads. The 60-km railroad trip from Rechitsa to Gomel took 2 hours.

The Pleistocene

Against the blackened background of their shields, griffons were depicted on either side of a vertically positioned knotwork. Zionist clubs, libraries, and schools were shut down, arrests were made, and people were exiled. Materialy dlja slovarja drevnerusskogo jazyka.

The Pleistocene—Holocene Transition on the East European Plain

As such, the headdress can be composed of a diadem similar to the one found in Kiev in 1889 Kondakov, N.
