The rank

The Annals is published six times a year January, March, May, July, September and November. There are Editors responsible for each these themes.

Estimation of megacity growth: Simple rules versus complex phenomena

Human Behavior and the Principle of Least Effort. Upon its establishment, in 1958, ATO started ekistic research and educational programs and later on, in 1963, established Athens Center of Ekistics ACE to foster a concerted program of research, education, documentation, and international cooperation related to the art and science concerned with the development of human settlements.

CITY SIZE DISTRIBUTIONS AND ECONOMIC DEVELOPMENT on JSTOR

Following tradition, the annual Presidential Address is published in Annals; Memorials for former AAG Presidents and exceptionally distinguished geographers are also published. Current issues are now on the Chicago Journals website.

Alternate Explanations of Urban Rank

New York: Academic Press, 1953. Analisi Economica dei Problemi Territoriali.
