## Greenways and Connectivity

Casselberry, FL: Florida Audubon Society. The presence of this data layer indicates the location lies within a central hub of landscape-scale, ecological significance, or within a landscape corridor connecting two or more hubs.

## Florida Ecological Greenways Network

Planning materials, maps, data, and other information developed or used in the program shall not be construed as designation of lands as part of the statewide system of greenways and trails.

## Greenways and Connectivity

Such critical linkages are to be approved by the Florida Greenways and Trails Council on an iterative basis as linkages are protected or priorities change over time.

## Florida's Greenways and Trails

However, the inclusion of existing conservation lands is not meant to serve as a comprehensive analysis or depiction of the significance of all existing conservation lands to the Ecological Greenways Network.

## Ecological Networks, from Concept to Implementation

Through a combination of land acquisition, conservation easements and landowner agreements, a continuous greenway links all of these destinations, and provides hikers, bikers and equestrians with the opportunity to traverse central Florida horse country and enjoy its varied and scenic landscape.
