## Managing For Change

For decades, Chevron has managed risks associated with the impact of ambient conditions on our operations. Aviation has been at the forefront of the global business response to climate change, becoming the first industry to voluntarily commit to emissions targets out as far as 2050.

## Managing Forests for Climate Mitigation

To ensure that the board can keep an eye on exposures and respond swiftly, banks should institute comprehensive internal-reporting workflows. The operations and infrastructure of drinking water, wastewater, and stormwater utilities can be threatened by more frequent and intense storms that can lead to flooding.

## Managing Global Warming

Boards should regularly identify potential threats to strategic plans and business models. If the fire had been started by a human, they meted out to the offender.

## Can managing climate change ever be good business?

Both public and private natural resource managers are entrusted with maintaining these services in spite of the challenges posed by climate change and other threats. Output from the MACC informs our annual budget, Long-Range Plan and technology strategy.
