### Dialogic teaching: 10 principles of classroom talk

Other artistic activities for exploring leadership include writing a poem about leadership, drawing cartoons, and creating a recipe for how to cook up leadership.

### Questioning: A Comprehension Strategy for Small

. Strategies in use in introductory courses in biology and geology are described in the sidebars. Pairing up to talk about ideas before a discussion can help all students find relevant evidence and participate confidently in a whole-class conversation.

### Secondary Teaching Resources

Make sure that these questions highlight the cultural background. After the read-aloud, have students place their sticky notes on the T-chart under the appropriate headings and explain to the group what their questions are and why they are thin or thick.

### Secondary home learning resources

The one member, who is not sporting a blindfold should lead his team across the field by providing clear commands. In choosing this important aspect of the students' lab experience, consider how your students might report their work in the future. As students can see the standard they are aiming for and select their own means to achieve it, they are more likely to work with a positive attitude.

### Six strategies to help students cite and explain evidence • The Great Books Foundation

After students listen to the read-aloud, have them answer and label the questions as either 'thin' or 'thick' and explain why. Picture activities are ideal for practising the language of comparison but can throw up other language and themes which can be surprising .
