National Railroad Construction and Maintenance Association (NRC)

Unlinked passenger trips are defined as the number of passengers who board public transportation vehicles.

National Rail Trends (Office of Rail Regulation)

It is used by cache busting in Advanced Ads Pro when the appropriate visitor conditions are used. Passenger rail is significantly more electrified than freight in almost all regions, and regions with higher reliance on urban rail and high-speed rail are those with the largest share of passenger-kilometres served by electricity.

National Rail Lines

The data collected including the number visitors, the source where they have come from, and the pages visited in an anonymous form. Responding rail agencies represent 99%.

Trends

Railroads are well prepared to help our economy grow in 2021.
