Economic Discrimination and Political Exchange

. International Relations and Global Climate Change. .

Princeton Studies in International History and Politics

When do leaders boldly confront foreign threats and when are they less assertive? However, developing country debt—export ratios doubled while new private lending remained negligible. . Furthermore, nations may seek to influence each other through extortion and explanation as well as simple exchange.

Economic Discrimination and Political Exchange: World Political Economy in the 1930s and 1980s on JSTOR

International political forces retransmit externalities back home, albeit with varying degrees of efficiency.

Princeton Studies in International History and Politics

These connections are based on a range of relationships such as broader and narrower scope, aggravation, relatedness and more.

Political Science 272/372: Theories of International Relations

¹ During the 1930s, discrimination was pervasive.
