Case study: Cinema Booking System

He has been involved in component-based development initiatives for significant enterprises in the UK and Europe.

Select Perspective

Select Architect is widely accepted and recognized as a consistent innovator in the design tools market.

Select Perspective

Book description This book presents the approaches and practices for the construction of software systems using Select Perspective.

Select Perspective

The Select Cruises case study is laid out on pages 167 to 205 of the above book. Through its minimal set of key deliverables and hierarchy of documented process workflows, a staged migration from your existing is straightforward.

Case study: Cinema Booking System

This is normally done through exercising their operations via a test harness.

Select Perspective

He has also taught object-orientation and development process at various universities as a visiting lecturer. Ralph Hofman works in Manager Services Benelux at Aonix.

Component testing

It also acts as a store for intellectual property, which is invaluable during system maintenance, improvement and integration. Ralph initiated component-based development as a way of working within a major international Bank. Notations for BPM include the BPMN.
