## True Program Costs: Program Budget and Allocation Template and Resource

Get the right tools While there are many project management tools on the market, not all are created equal. While the long-term goal for nonprofits is not to return profits to shareholders, we all know that nonprofits are business entities that need to maintain financial health and stability in order to achieve their mission. Many institutions also include performance incentives in the budget to boost staff morale.

## The Budget Allocation Process

Gone are the days of using Excel spreadsheets to manage resources. Budgets are normally reviewed annually and set for a 12- to 24-month period. This distinction has been problematic for many nonprofits because of the simplistic idea that common costs such as rent, utilities, and technology are all indirect costs, or overhead.

## A Brief Guide to the Federal Budget and Appropriations Process

While a calculation can be completed for a single program or activity, we highly recommend that these concepts and practices be used throughout a nonprofit. Allocating resources on projects that need multiple skills allows them to sharpen their primary skill sets and an opportunity to build new ones.

## 6 tips for managing your project budget

Like a legislative bill, budget resolutions originate in the relevant committee in this case, the respective budget committees of each chamber and must be approved by the whole chamber.

## Best Practice Guide to Allocating IT Costs

This improper resource allocation blows up costs, delays delivery, and ultimately derails projects off their tracks.

## The 5 Best Methods Of Successful Resource Allocation

Revisit, review, re-forecast A project left to run without budget management and re-forecasting will lead to failure.
