### Eyelid Disorders

Please note: The information on this page is not intended as a diagnosis of your problem, but rather as a helpful guide.

### Eye Diseases and Conditions

Blockage of the nasolacrimal duct prevents the passage of tears into the nose and results in a watery eye.

### Eye Diseases

Staphylococcus aureus, streptococci, Haemophilus sp. In humans, cones far outnumber rods in the fovea.

### eye disease

Symptoms of uveitis can range from ocular redness, aching, and sensitivity to light, to blurred vision and floaters in the vision.

### Vision Problems and Autoimmune Disorders

The cornea, the front transparent layer of the eye, along with the crystalline lens, refract bend light to focus the image on the retina. In most cases of strabismus in children, the cause is unknown.

### Causes of Double Vision

It can appear as repetitive blinking, twitching, or fluttering. Preservative free lubricating ointments and drops need to be used frequently. It is estimated that 1.
