Geographica

On Geography or On Geographical Things gained recognition in the mid-fifteenth century when the pope sought to breach the gap between the Eastern and Western Christian churches at an ecumenical council in Florence. Includes bibliographical references and indexes.

Strabonis Geographica, Volume 3 by Strabo

Print and online editions of the Greek text of Strabo's Geography

Falconer in two folio volumes; much criticised. Whether these hypothetical notes first found their way into his history and then into his geography or were simply ported along as notes remains unknown. The Introduction contains a major bibliography on all aspects of Strabo and a definitive presentation of the manuscripts and editions up until 1917.

Strabonis Rerum Geographicarum Libri XVII

III, vii, 815 -1238 p Notes Paged continuously: vol. The translation of the first six books is by F.
