The Portuguese revolution and the Armed Forces Movement (Book, 1975) [vip.stumagz.com]

At the beginning the government rarely intervened. DiscoverBooks is committed to Letting The Stories Live On by supporting schools and literacy efforts and by diverting discarded books from landfills. A workers' strike has paralyzed the country, as the military junta finds it increasingly difficult to contain pro-democracy demonstrations.

Portugal Honors April 25 Revolution, the World's Coolest Coup

If the Communist Party leaders are reformist, aiming to strengthen the mild left wing of the MFA, the Socialist Party do their best to strengthen the Right of the MFA.

1974

One article said there was no threat of a military putsch, whilst another said events were moving towards an open military dictatorship. In the first weeks of the revolution, a key group was the Junta of National Salvation, composed entirely of high-ranking, politically moderate military officers. It is estimated that about 380 factories self-managed and 500 co-ops were in operation by the summer of 1975.

THE PORTUGUESE AFFAIR

This was different from companies which workers took directly into their own hands self-management , which was more common in firms in real financial difficulties and smaller businesses. The Portuguese Communist Party, even more than the Maoists, created the idea that there was a danger that fascism would return.

Portugal

One result of all past revolutions was the disintegration of the existing army. Despite repeated radio appeals by the revolutionaries asking the

population to stay home, thousands of Portuguese citizens descended on the streets and mingled with the military.

In Defence of Marxism

Let us start with the historical experience of armies in periods of revolution. But the Bonapartist Spinola understood that his only hope of keeping the masses in check was the presence in the government of the leaders of the Socialist and Communist parties. The TAP strike was the first large-scale strike after April 25th and the government's response was an indicator of how any of the 'post-fascist' governments would treat workers' struggles.

Thirty years since the Portuguese Revolution—Part 2

Nationalisation aimed to provide a more stable infrastructure and environment for private enterprise and to limit the power of the workers committees by making the appointment of managers a state function. You mention some gains of the revolutionary period that survived deep into the present, like a rent freeze that lasted until 2012. Then again, the CRTSM programme does not say a word about the election of officers.

Constitution of the Portuguese Republic

The first CDS congress in January 1975 had to be abandoned because of riots outside. On the other hand the Junta, on the other the MFA. The unrest forced the Salazar and Caetano regimes to spend more of Portugal's on colonial administration and , and the country became increasingly from the rest of the world.
