Lawrence is 242 ft 73.

### St. Lawrence Seaway

The railroads carried freight and goods between the coastal ports and the Great Lakes cities. Not sure what will happen this year only Mother Nature knows for sure BUT it will be a huge disappointment if there isn't a Skateway for our Annual Winterlude festivities.

### St. Lawrence Seaway

This time last year, ice barely covered 2 percent of the lake. In the following decades, developers proposed a hydropower project as inseparable from the seaway, the various governments and seaway supporters believed the deeper water to be created by the hydro project was necessary to make the seaway channels feasible for oceangoing ships.
