## Weather

Introduction In 2015, the United Nations UN committed to achieving zero hunger by 2030 as the second of the Sustainable Development Goals SDGs. We believe information is a powerful driver for the new tomorrow.

## How India Eats: The class structure of food consumption in India

A country can be called self-sufficient only when it produces enough to meet its domestic needs.

## The global food problem

Peer-reviewed surveys indicate positive impact of commercialized GM crops. Although government programs have sought to make food more affordable to poorer households, India's lack of cold-storage facilities and cold-chain transportation have resulted in large quantities of food being wasted.

## Access to food is a problem in India: WFP

Med J Dr DY Patil Univ 2014;7:411. Agricultural Productivity : By the term agricultural productivity we mean the varying relationship between the agricultural output and one of the major inputs such as land. We will reach self-sufficiency in pulses within a few years.

## Food production: India's food processing sector may attract \$33 billion by 2024: Study

Since NSS data reports total protein and take no account of quality or digestibility, our results of digestible protein are not directly comparable.

## How India Eats: The class structure of food consumption in India

With continuous changing taste and preferences of customers, increasing quality consciousness the structure of food market is changing rapidly. The young have left in search of work in the cities after continuous drought in the last few years caused crops to fail.

## **Loading interface...**

Way back in 1961, the per capita availability of foodgrains was 468. By reducing credit risk faced by lending institutions, increased coverage of insurance should give farmers better access to credit and encourage further investment in the agricultural sector. Much of India's trade is with economies within a relatively short shipping distance, although imports of wheat and sugar come from more distant sources such as Russia and Brazil.
